

REFRIGERANT COLLECTION CENTERS

ReKlaim[®]

**Keep Customers Coming Back—
Become a ReKlaim Collection Center**

A quick, convenient, easy return program designed for today's busy wholesaler.

Customers have used refrigerants to return.
Shouldn't they visit your store?

BECOME A REFRIGERANT COLLECTION CENTER TODAY!

Give your customers an additional reason to visit you—not your competitor.

You offer good inventory, pricing, selection and service. But what else can you provide your customers to keep them coming in?

Used refrigerant returns.

HVACR contractors are required by law to recover used refrigerants. When they need to exchange their full cylinders for empty ones, invite them into your store. This is an excellent opportunity to build relationships and revenue from additional sales. When you provide a reclamation program, contractors come to see **you**, not your competitors.

ASPEN makes reclamation fast and easy. Become an ASPEN ReKlaim Collection Center to provide a helpful service to contractors while receiving refrigerant analysis and payment in 30 days.

As a ReKlaim Collection Center you'll receive:

- DOT-compliant shipping labels and documentation
- A GC Mass Spec analysis for every cylinder returned to ASPEN (ensuring the most accurate results among refrigerant reclaimers)
- A continuous supply of empty recovery cylinders to support your customer swap programs
- Timely payments
- The strength and reputation of ASPEN, one of the most respected names in the packaged gas industry

Get started today!

Contact the ReKlaim support team at 800-473-3766, or email ARI-ReKlaim@ASPENrefrigerants.com.

Free program to wholesalers

ASPEN supports the program with in-store promotional materials and external marketing including Google AdWords, direct mail, and ad campaigns direct to contractors.

1.

Easy to Use

ASPEN gives you step-by-step instructions, all the supplies you need, exchange cylinders and FREE pickup.

2.

Backed by ASPEN

Supported by the largest distributor of refrigerants coast-to-coast, ASPEN Refrigerants. Count on our strong distribution and marketing.

3.

Customers Return for More

Give customers a reason to come back soon. Build and deepen relationships with customers and enjoy more sales from the service you provide.
